

## Printing Current Page

This process will activate the Print Range section of the print dialog box so that users can select whether to print All pages or Current Page.

### From Designer:

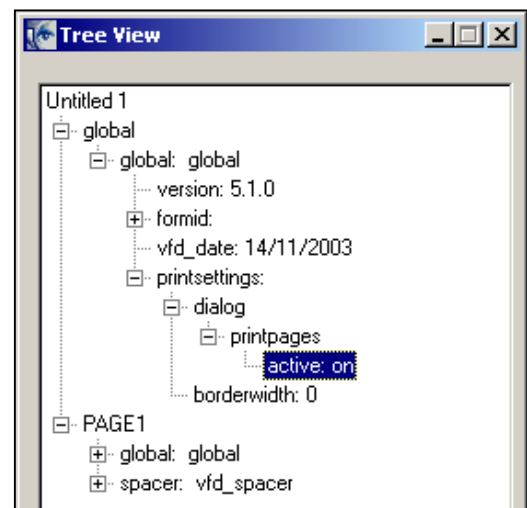

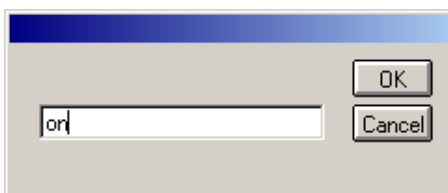

1. Choose **File...Form Setup**
2. Under **Print Settings**, check *Deactivate Page Choice in Print Dialog Box*

3. Click **OK**
4. Choose **View...Tree View**
5. Click the plus symbols (+) to expand the form *global* structure (above PAGE1) as shown below:

```
global
  global: global
    printsettings:
      dialog
        printpages
          active: on
```

6. Double-click **active**: then change it by typing **on**

7. Click **OK**
